01 PROFILE

New York City freelance producer and line producer with nearly 20 years in film, commercials, branded content, music videos, and live production. First Assistant Director and production management experience, with work spanning development and prep through post and delivery.

02 LEADERSHIP

- **Creative to production plan:** Align agencies, clients, directors, and department leads on the creative priorities, production scope, and tradeoffs.
- **Crew and set leadership:** Set departmental priorities, coordinate crews and vendors, and rework the plan when time, locations, or resources shift.
- **Budget forecasting:** Helped lower a two-city branded production estimate by 20% to meet the agency's bid target by shifting a shoot day to Atlanta, resizing the crew, and sourcing gear locally.

03 PRODUCTION

- **Budgeting and schedules:** Build bids, scopes of work, budgets, and shooting schedules. Model union labor, fringes, and overtime in preliminary feature budgets.
- **Casting and locations:** Coordinate casting and talent, scout locations, and plan location logistics.
- **Crew and unions:** Hire crew, coordinate crew paperwork and union requirements, and organize department handoffs.
- **Vendor deals:** Source vendors, compare bids, and negotiate rates and terms with production partners.
- **Post producing:** Select post houses, negotiate scope and rates, coordinate editorial review, and oversee finishing and delivery.

04 TOOLS AND PLATFORMS

Production: Entertainment Partners (EP) ecosystem; Showbiz; Hot Budget; StudioBinder.

Editorial and post: Adobe Creative Cloud; Final Cut Pro; DaVinci Resolve; Avid Media Composer; Frame.io.

Camera platforms: ARRI, Sony, and RED.

05 CAREER BACKGROUND

Started in on-set production and the assistant directing department, then moved into production management, line producing, and producing. That work spans narrative features and shorts, internationally released music videos, live production, and commercial work for global brands.

Produced multi-asset campaigns that helped establish a brand's visual identity. Turned agency treatments into budgets, staffing plans, and shoot schedules, then coordinated the handoff to editorial, finishing, and delivery.
